DESCRIPTIVE
Catalogue

FLOWER, GARDEN AND FIELD SEEDS.

1886.

ROCHESTER, N. Y.

MARIA C. GILES, Scooba, Miss., Dec. 15th, 1885. "The packages of seeds reached me safely. Many thanks for your liberal gift of extras. I did not expect that after your club rate reductions."

MRS. R. R. GOODYEAR, Temple, N. H., April 6th, 1885. "I sent for your *Fringed Petunia* last year. They were very fine, and greatly admired by all who saw them. I never enjoyed a bed of flowers so much, they were so perfectly beautiful. I order more of this same kind and trust they will be as satisfactory as last year."

J. S. PELTON, Clinton, Conn., May 18th, 1885. "I had splendid success with your *Aster* seed last year."

LOUISA S. DOANE, Mechanics Valley, Pa., May 4th, 1885. "The flowers from the seeds I ordered from you I shall never forget. Their beauty was a surprise to everyone."

MRS. B. M. COOK, Charlotte, Mich., May 19th, 1885. "The seeds I ordered from you last did splendidly. I was more than pleased with them."

J. W. CORNELIUS, La Fayetteville, N. Y., May 5th, 1885. "Seeds received are very satisfactory. Thanks for the *extra pkts.* received."

MRS. E. G. RICHARDSON, Lowell, Mass., Feb. 4th, 1885. "I have had from you in years past and have had the very best satisfaction from the seeds of your establishment. On receipt of your catalogue I could not restrain from sending you an order."

W. S. RAYMOND, Potsdam, N. Y., Feb. 27th, 1885. "The seed bought of you gave the best of satisfaction. The PHLOX and ASTERS were particularly fine and were much admired. Accept my thanks for your generous premium as above, and trusting your season will be a prosperous one."

MRS. G. W. HANSBROUGH, Salem, Va., Feb. 20th, 1885. "I have used your seed with much satisfaction, and as I am in receipt of your spring catalogue will take pleasure to show it to my neighbor."

MRS. C. F. PLATT, Painted Post, N. Y., May 16th, 1885. "I ordered seeds from you last year and found them very satisfactory."

MAURICE T. DODGE, Manchester, N. H., April 10th, 1885. "Last year I received a number of *extra* pkts. from you, for which, please accept thanks. All the seeds were good. I raised as many as two dozen Diadem Pinks from one pkt. of seeds without any extra trouble."

M. A. HARVEY, Epping, N. H., March 22nd, 1885. "Thanks for *extra* seeds sent us last year. The package of seeds, 'Briggs' Premium Flat Dutch Cabbage' was very fine, good size, very tender, and the best Cabbage we have had for some years. Wish you success."

A. P. SHELDON, New Hartford, N. Y., Dec. 3rd, 1885. "The garden seeds I bought of you last spring were A, No. 1, and would especially recommend the new Bean, Emperor William."

A. & E. KROM, Albemarle, S. C., March 7th, 1885. "In former times our father dealt with your firm and always got good and true seeds. We hope to fare as well as he did."

IDA A. CARL, Demorsville, Ky., Jan. 5th, 1886. "Please send me your catalogue I wish to purchase seeds. Knowing yours to be a reliable firm from experience I will patronize you again."

L. M. CASE, Waldron, Ill.: "I feel as if I owe you thanks for the good quality of seed received of you. You sent me seventy-five packets of flower seeds and twenty papers of vegetable seeds. They were the best and largest papers for the price I ever bought."

MRS. AUGUSTA WETHERN, took the first premium on Bouquet of Flowers. Seed were purchased of Briggs Bros. & Co.—Farmington (Me.) Chronicle.

MRS. A. H. CALDWELL took the first premium on the flower display at the late Southern Wis. Fair, the successful products having been raised from seeds purchased from Briggs & Brother. Mrs. C. has taken premiums on flowers raised from Briggs Bros. & Co.'s seeds for the last five years.—Janesville (Wis.) Gazette.

MRS. E. A. NEWCOMB, Waterbury Center, Vt.: "Inclosed please find the award to me of first premium on basket of flowers and second premium on bouquet, grown from seeds purchased from you."

D. S. BURNHAM has a most beautiful show of Asters, the seeds of which Mr. Burnham obtained from Briggs Bros. & Co., of Rochester, N. Y. There were twenty varieties in fifty pots, and all in full bloom. Mr. Burnham was awarded the first premium.—Nashua (N. H.) Telegram.

BEST display of Asters—CASTNER RAPLEE. Seeds from Briggs Bros. & Co.—Dundee (N. Y.) Recorder.

BEST collection of Asters; MRS. B. LOMBARD. * * Seed purchased of Briggs Bros. & Co.—Lee (Mass) Gleaner and Advocate.

W. H. Clark took first premium on Asters. They were raised from seed grown by Briggs Bros. & Co.—Bellefontaine (O.) Republican.

SAMUEL WILLIAMSON, of Clay township, took a premium at the County Fair on Squashes. Seeds from Briggs Bros. & Co.—Logansport, Ind., Journal.

FIRST PREMIUM was awarded to Briggs Bros. & Co. on best collection of Asters at the State Fair at Albany, N. Y.

THE premium for best collection of Balsams was awarded to MISS GERTIE LOVELL. The seeds were purchased of Briggs Bros. & Co.—Booneville (N. Y.) Herald.

MRS. A. C. HAWLY, Jefferson, first premium on Asters. Seeds from Briggs Bros. & Co.—Jefferson (O.) Sentinel.

EMMA M. EDDY received first premium on collection of Asters, the seeds of which came from Briggs Bros. & Co.—Palmyra (N. Y.) Courier.

MRS. V. MILLAR, Susquehanna Depot: "Your seeds have been the most satisfactory I have ever used, not only the flower seed, but also the vegetable."

THE Floral Department was creditable indeed. The flowers entered by G. B. MCGINN, were very fine. First premiums were attached to nearly all his collection. The seeds were purchased of Briggs Bros. & Co.—Brooklyn (Iowa) Journal.

THE beauty of beauties was a Bouquet of Flowers raised by MRS. MARY CLARK, of Maria, from seeds procured of Briggs Bros. & Co. It eclipsed anything of the kind in Floral Hall.—State Exchange.

MRS. GEORGE N. JOHNSON, Leroyville, Pa.: "I send you a specimen plant raised from the New Variegated Cockscomb seed. They were perfect; almost as large again as the colored plant in your Catalogue. As a lady says, it was a perfect beauty."

AT the Winfield (N. Y.) Union Agricultural Fair, S. W. NICHOLS was awarded first premium for best Cockscomb. Seeds bought of Briggs & Bros. Co.—West Winfield Standard.

BEST display of Phlox, Mrs. ROBERT WORTS. Seed from Briggs Bros. & Co.—Romeo (Mich.) Observer.

P. H. SKAGGS, Blue Sulpher Springs, West Va.: "I must say that the seeds I bought of you are cheaper and of a better quality than I can get of any other dealer."

MRS. S. D. WORDEN, who took first premium on Pansies, buys her seeds of Briggs Bros. & Co.—Coudersport, Pa., Journal.

LET me say a word about my Camellia Balsam. In the spring I got a paper of seeds of four new varieties, recommended in Briggs Bros. & Co.'s Catalogue as "particularly fine." The low growth and general bushy appearance of the plant has made it no especial favorite of mine. But the engravings of it looked so enticing that I could not help giving it another trial. And I will long rejoice that I did. I pruned the side branches as directed, giving ambitious shoots constant nipping. And I was not prepared for the height the plants attained, the perfection, doubleness and rare beauty of the flowers. By some they were pronounced unequalled by anything in the garden. On pure white ground were deep brilliant crimson stripes on some—on others, veins, spots and streaks of lovely pink, red, lilac and crimson. Pruned in this way, they were planted very closely, taking little room and forming a border of wondrous beauty. I never wish to be without them.—JANE BOSWELL MOORE in the American Farmer.

AT the Winfield, N. Y., Union Agricultural Fair, S. W. NICHOLS was awarded first premium for best marigold plant. Seed purchased from Briggs Bros. & Co.—West Winfield Standard.

A. R. WHEELER, at the late fair, exhibited some fine Stocks, La Superb, New Rose and Dwarf Victoria Asters, which were awarded the first premium. All raised from seed grown by Briggs Bros. & Co.—Ypsilanti, Mich., Commercial.

FIRST premium on Pansies, awarded to T. R. CONKLIN. Seed from Briggs Bros. & Co.—Lapeer, Mich., Clarion.

MRS. R. CRAWFORD, best display of Plants and Flowers. Seed from Briggs Bros. & Co.—Belleville, Ky., Telegraph.

MRS. S. E. SHARP, who received the premium for the splendid collection of Pansies exhibited, procured her seed of Briggs Bros. & Co.—Pittsfield, Mass., Eagle.

MRS. H. G. JOHNSON, who took premium on Pansies, buys her seed from Briggs Bros. & Co.—Clarksburg, West Va., Sun.

EACH year I bought one dollar's worth of seed of you. I never purchased flower seed of any one else and am sure I never shall want to, so long as your seed proves so entirely satisfactory. My Pansies were beauties, almost as large as any of which you make mention in your Catalogue. Some of them measured two and three-eighths inches. They are the first Pansies I ever raised. Isn't that doing well? GERTIE LOVELL, Booneville, Oneida Co., N. Y.

DAVID SANDHOVEL was awarded first premium on Pansies. Seeds from Briggs Bros. & Co.—Fulton, N. Y., Patriot and Gazette.

EMMA M. EDDY received first premium on Seedling Petunias, the seed of which came from Briggs Bros. & Co.—Palmyra, N. Y., Courier.

M. E. MORRIS, of Augusta, Ark., took premiums on best display of Squashes at Woodruff County Fair. Seed purchased of Briggs Bros. & Co.

TO PURCHASERS OF SEEDS.

WE place in your hands our Descriptive Seed Catalogue for 1886, with the request that you will look it through, compare its list of Seeds, its prices and terms, with the lists, prices and terms of other Seed catalogues, and on your finding that our terms, etc., are in your interest, trust you will favor us with your seed orders, which we shall take pleasure in filling promptly.

The List, which we believe to be as *COMPLETE* as that of any other catalogue, contains everything desirable in *Flower* and *Vegetable* Seeds, and in order to make *PRICES LOW* and *PACKETS LARGE*, we dispense with cuts and have curtailed descriptions of the commoner flowers and vegetables, by which we make a *great saving* in paper, in type setting and press work, and *one cent* per catalogue covers postage. This Catalogue is *for the million*. BRIGGS BROS. have heretofore published catalogues that cost *\$30,000 per hundred thousand*, and *\$10,000 postage* per hundred thousand. This *great cost* of catalogues, the *consumer of seeds must pay*, or the *publisher must loose money*. In order to cover such great expense, *prices must be put high*. *Artistic cuts, wordy descriptions and high prices* don't cause seeds to produce more showy flowers, or larger or better crops, as some publishers endeavor to make their readers believe. We propose to furnish seeds of *FIRST QUALITY* at *LOW PRICES*, and *thus by our savings* in catalogues, give an *advantage to those who may be kind enough to favor us with their orders*.

In comparing catalogues, **please take notice of the fact, that our prices include postage and express charges on ALL seeds at catalogue prices, except Beans, Corn, and Peas, at bushel rates.** In other catalogues you will notice *this, or the same in substance*: "*If by mail in quantities of $\frac{1}{4}$ pound and upwards, postage must be added at the rate of 16 cents per pound,*" and "*add 30 cents per quart extra, if to be sent by mail.*" **Nothing** is to be added to our prices. As we have said above, *our prices include postage and express charges.*

With almost every order we have heretofore filled, we have added, gratis, some new and choice seeds which we thought would be acceptable. This practice we shall continue, and therefore those who may receive more seeds than ordered, will please not regard it as a mistake, as some of our friends have suspected. If kinds ordered, however, are not received, it would be evident a mistake had been made, and it would be purely a mistake. In such cases, parties will please notify us, and the lacking seeds will be forwarded without delay.

Naturally, enquiry will be made as to our *stock of seeds*, and in answer we have to say, that the *American* varieties are in part grown by ourselves, on our own grounds, and the balance, with few exceptions, by our own growers, under our supervision and from stocks furnished by ourselves. The writer has had over forty years' experience as seed merchant and seed grower, and has also made too trips to the old countries, making the personal acquaintance of the leading seed growers and seed merchants of England, France, Germany and Italy, from whom we import our foreign seeds, and we will have none but the best.

We should be pleased to have you show this Catalogue to *your friends*, that they may take advantage of our *favorable terms and prices.*

Respectfully,

BRIGGS BROS. & CO..

Rochester, N. Y.

EXTRA INDUCEMENTS FOR FORMATION OF CLUBS.

There are many in a neighborhood who would not, perhaps, take trouble to get a Catalogue from us, but who would, if it were exhibited to them, purchase seeds to some extent, and, therefore, to induce those who may receive the Catalogue to call upon their neighbors, obtain their orders, and thus assist us in enlarging our sales, we make the following *liberal offer* :—

Parties remitting \$1.00,	may select Seeds in Pkts.,	at Catalogue prices,	amounting to \$1.30
“ “ 2.00,	“ “ “ “ “ “	“ “ “ “	“ “ 2.75
“ “ 3.00,	“ “ “ “ “ “	“ “ “ “	“ “ 4.25
“ “ 4.00,	“ “ “ “ “ “	“ “ “ “	“ “ 5.50
“ “ 5.00,	“ “ “ “ “ “	“ “ “ “	“ “ 7.50
“ “ 10.00,	“ “ “ “ “ “	“ “ “ “	“ “ 15.00
“ “ 20.00,	“ “ “ “ “ “	“ “ “ “	“ “ 32.00

On receipt of the order, the seeds will be forwarded by *mail* to any address in the *United States*, and postage *prepaid*. The above offer is meant to be for Flower and Vegetable Seeds, in *packets only*, and *does not* apply to seeds by the ounce, quart, pint, &c. *The SAME terms as the above will be allowed to any ONE PARTY ordering.*

PACKETS ARE FULL SIZE AND LOW IN PRICE.

By comparing our Catalogue prices of packets with the prices of packets in other catalogues, *it will be noticed that our prices average much less* than those of any other party, and as a consequence, the purchaser of our seed in packets, would get a *larger number* for a given amount of money than from *any other party*; and we want it understood, that our packets are *full size*. Our seeds are also *unsurpassed in quality*.

NOTHING TO BE ADDED FOR POSTAGE OR EXPRESS CHARGES.

When seeds are ordered from us by the pkt., Oz., $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., $\frac{1}{2}$ pt., Pt., or Qt., at Catalogue prices, *nothing* is to be added to an order for *Postage or Express* charges. *Our prices include* charges when ordered as above. *Please have this in mind when comparing prices*, as by *other catalogues*, parties ordering are required to *add* to their orders 16 cts. per lb., 15 cts. per pt., and 30 cts. per qt., for *Postage or Express* charges.

HOW TO SEND MONEY.

If the following precautions are taken in the transmission of money, we will take the risk of the safe arrival of the funds, namely: by *Post Office Money Order, Postal Notes, Express Money Orders, Drafts* on New York, or small amounts in *Registered Letters*, and the *cost* of such *Post Office Money Orders, &c.*, may be *deducted* from the remittances.

Sums of *Two Dollars* or less may be sent by *Mail* at *our risk without registering* and may be sent in *currency* or *Post Office Stamps*.

PACKAGES SENT FREE AND GUARANTEED.

We will send small packages by mail, and larger by Express, Prepay Charges, and guarantee safe delivery. If, after a reasonable time, a package should fail to reach the owner, we will immediately after being notified of the fact, and receiving a duplicate of the order, with date, &c., refill the same and forward without additional cost to the party ordering.

Parties ordering seeds, will please state whether or not it is convenient to receive packages by Express, and name their nearest Express Office.

SEND MONEY WITH THE ORDER.

Please send pay at time of ordering, *as we do not keep any book accounts in the Mail Department* of our business.

Please show this Catalogue to your friends and send us combined orders, thereby saving time and trouble to all parties. Our terms for Club Orders are liberal.

Shall be pleased to mail our Catalogues free of charge to any parties desiring to purchase seeds.

ANNUAL FLOWER SEEDS.

THE FOLLOWING ARE FLOWERS THAT BLOOM THE FIRST SEASON FROM SEED.

EVERLASTING FLOWERS.

Those who have not the facilities to grow plants and flowers in their dwellings during the winter months, will find a few of these beautiful flowers very useful, to brighten up their homes during the winter. The flowers of the given varieties will keep fresh and bright for several seasons. They can be worked up into wreaths, crosses, monograms, baskets, &c., and if necessary can be used for funeral or festive purposes. The flowers should be cut in various stages of growth; some when half opened and others when full blown. After cutting, tie into small bunches and hang them up in a dry, airy place, with the flowers downwards, to keep their stems straight and in good shape.

Swiss Chard Large Ribbed Golden Veined Brazilian	5	10	15	25	75
Swiss Chard Large Ribbed Scarlet Veined Brazilian	5	10	15	25	75
Swiss Chard Large Ribbed Silver Veined Curled, extra	5	10	15	20	60
Swiss Chard Large Ribbed Scarlet Chilian	5	10	15	25	75
Swiss Chard Large Ribbed Yellow Chilian	5	10	15	25	75

BEETS FOR STOCK FEEDING.

Improved Imperial White Sugar —Very fine.....	5	10	15	20	60
Vilmorin's Improved Imperial White Sugar —Imported, very fine.....	5	10	15	25	75
White Red Top Sugar —Excellent.....	5	10	15	25	75
Carter's Sugar Cane —"We challenge any other Beet in cultivation to equal this in the production of sugar." So say Carter, Dunnnett & Beale, the originators,.....	5	10	15	25	35
The Sugar Beets while young are very tender, sweet and finely flavored: <i>excellent for table use</i> . Mangel Wurzel Beets are grown <i>exclusively</i> for stock feeding.					
Prize Yellow Globe Mangel Wurzel —A fine variety.....	5	10	15	20	50
Carter's Warden Prize Yellow Orage Globe Mangel Wurzel <i>A splendid variety</i>	5	10	15	25	50
Kinver Yellow Globe Mangel Wurzel —Fine.....	5	10	15	25	80
Yellow Ovoide des Barres —Egg-shaped. A hardy, productive sort.....	5	10	15	20	60
Carter's Improved Red Globe —A hardy, productive sort.....	5	10	15	20	60

All the above Mangel Wurzels are *truly desirable*. All are *enormously* productive, flesh solid and nutritious, good keepers. The Beets being *Globe-shaped*, crops are easily gathered, as they grow mostly above ground. The *Globe* and *Ovoid* shaped are better adapted for *shallow* soils than the *long-rooted* Mangolds.

Mangold Wurzel Golden Yellow Mammoth —This quite <i>distinct</i> sort is a cross between the Long Yellow and Golden Tankard varieties. In form and size it closely resembles the " <i>Red Mammoth</i> ." The <i>flesh</i> , leaf-stalks and mid-ribs of the leaves are <i>golden yellow</i> . It is a <i>heavy</i> cropper; the root grows about half above the ground, and like that of other yellow-fleshed varieties, is very rich in saccharine matter.....	10	15	25	40	\$1.50
Red Mammoth, or Giant Long Red Mangel Wurzel —An <i>enormous</i> cropper.....	5	10	15	20	60
Improved Norbitan Giant Long Red Mangel Wurzel —This is also an <i>enormous</i> yielder.....	5	10	15	20	60
Carter's Improved Mammoth Prize Long Red Mangel Wurzel Golden Tankard, Carter's Improved —A stump rooted sort of fine form and sweet flavor,.....	5	10	15	25	75

The improved *Norbitan Giant* and *Carter's Mammoth*, are *very similar*. They are *distinct* from other sorts. Tops are small, roots of good shape and of *mammoth* size, yielding *immense* crops per acre. *Flesh solid and rich*.

BORECOLE, or KALE.

	Pkt.	Oz.	2 Oz.	1/4 Lb.	Lb.
Dwarf Green Curled (German Greens)—Extra selected stock	5	10	15	25	1.00
Dwarf Green Curled Scotch—First quality	5	10	15	20	90
Dwarf Purple Curled—Extra fine	5	10	15	20	90
Tall Green Curled Scotch—Extra fine	5	10	15	20	90
Carter's Thousand Head Kale—The hardiest and most prolific winter Green in cultivation; good for sheep and lambs.	5	10	15	25	1.00

Culture of Kale the same as Cabbage. Kale is grown for greens, and makes a delicious dish.

BROCOLI.

Early Purple Cape—A standard early and excellent sort	5	35	65	1.20
Carter's Champion—A large, latish, close heading variety	5	35	65	1.20
Superfine Early White—Heads good size, compact, and of creamy white color	10	50	1.00	

BRUSSELS SPROUTS.

Carter's Perfection—A new variety of excellent quality	5	20	35	65
Improved Dwarf—A variety producing compact heads of excellent quality	5	15	25	55

CABBAGE.

Very Early Etampes—NEW; "The best of all early Cabbages," so say Messrs. <i>Vilmorin, Andreux & Co.</i> , of France, of whom we import. Heads medium size, solid, and of fine quality	5	20	30	50	1.75
Tourlaville Early—Another very early fine heading French sort	5	20	35	60	2.00
Early York—A standard old and tried early sort	5	10	20	35	1.25
Early Wakefield (TRUE JERSEY STOCK)—Early, medium size, good quality, and very sure header. Popular market sort	5	25	40	75	3.00
Henderson's Early Summer (TRUE AMERICAN)—Fine early sort, coming in just after Wakefield. Large, firm heads	5	20	35	65	2.50
Early Winningstadt—First quality. Cone or heart-shaped, hard heading, second early. This variety has deservedly gained popular favor. Excellent summer, fall and winter. Depending on the time of putting out	5	15	25	40	1.50
Early Bleichfeld Giant—"Short-stemmed, head large, very solid." Second early sort	10	25	40	75	2.50
Fottler's Early Short-Stemmed Brunswick Drumhead—Best American	5	20	35	65	2.50

Fottler's Drumhead for late summer, fall and winter use, cannot be too highly recommended. The heads are large, compact, crisp, tender, juicy, and of agreeable flavor.

Filderkraut—Pointed head. A very solid and sure heading variety. For fall and winter	5	20	35	65	2.25
Early Large Schweinfurt—Largest heading, early variety in cultivation; heads tender and crisp. Summer and fall	5	20	35	60	2.00
Henderson's Selected Flat Dutch—One of the best Fall and Winter Cabbage grown	5	20	35	65	2.25
Premium, Large Flat Dutch (AMERICAN)—Dwarfish, heads large, solid, broad, and flat on top; tender, crisp and succulent. Fall and winter	5	15	30	50	1.75
Stone Mason—A Marblehead sort. A sure and hard heading variety; excellent fall and winter, or late summer	5	20	35	65	2.50
Superior American Large Drumhead—Heads large, flattened, white inside, tender, crisp and well-flavored; seldom fails to form large, close, heads. For fall and winter	5	15	30	50	1.75
Marblehead Mammoth Drumhead—One of the largest, close heading varieties extant. An American sort. Fall and winter	5	20	35	60	2.00
Improved American Savoy—Generally the Savoys make loose heads. This variety is a compact and sure hard heading sort. Best Savoy grown. Excellent fall and winter	5	20	35	65	2.50
Fine Blood Red—For pickling and salad	5	15	25	40	1.50
New Garfield Pickler—Pointed red cabbage; NOVELTY; solid head, in shape resembling the Winningstadt, color being an intense reddish purple; valuable	15	35	60	1.00	3.50

CARROT.

French Horn, Early Very Short Scarlet—Best forcing	5	10	20	30	1.25
Early French Scarlet Short Horn—Fine for table	5	10	15	25	1.00
Carentan Early Half Long Scarlet, without core—Forcing or open ground	5	10	20	30	1.25
Danvers Improved Half Long Scarlet, very smooth and handsome, producing large crops, which are more easily secured than crops of long-rooted sorts. Fine for stock	5	15	25	30	1.00
Long Red Stump-rooted—A variety without core; table or cattle	5	15	25	30	1.00
Long Scarlet Altringham—Fine, long field sort; for cattle	5	10	15	25	90
Improved Long Orange—A well-known standard field stock variety	5	10	15	25	1.00
James' Scarlet Intermediate or Half Long Scarlet—A very productive cattle carrot	5	10	15	25	1.00
Orange Belgian Green-Top—Large yielder, profitable for stock feeding	5	10	15	25	75
Giant White Belgian Green Top—One of the best for Stock	5	10	15	25	75

CAULIFLOWER.

This Novelty, "SOLID IVORY CELERY," Messrs. Carter, Dunnnett & Beale say of it:

"We have the pleasure to introduce for the first time, not only a new Celery, but what we believe to be the most perfect type of Dwarf White Celery that has ever come under the notice of the cultivator.

"Some of the most remarkable features of this Solid Ivory Celery are its extreme dwarf, compact habit, and beautiful white color throughout; while by reason of its neat growth it is especially valuable as being of the most simple cultivation, inasmuch as it may be planted upon the surface of the ground instead of in trenches, and all that is necessary in the way of earthing up can be done in a very simple manner by the hand, or with an ordinary draw hoe, a little care being taken to bring the stalks close together, and thus assist in its complete blanching. If the heads are also tied with a little rough matting, in the same way as Cos Lettuce, it will assist not only in keeping the Celery perfect, but also in excluding superabundant moisture.

"As the name signifies, Solid Ivory Celery has been proved, after repeated trials, to be the most solid, crisp eating, and delicious-flavored variety in use, the peculiar fibert-nut flavor being most marked.

Our stock of seed of the "Solid Ivory Celery" we received directly from Messrs. Carter, Dunnnett & Beale.

Henderson's White Plume—The seed we offer is directly from Mr. Henderson. Pkt. 15c.; 1/2oz. 50c.; oz. \$1.00.

"Mr. Henderson says of this CELERY: "Naturally its stalk and portions of its inner leaves and heart are white, so that by closing the stalks, either by tying them up with matting or by simply drawing the soil up against the plant and pressing it together with the hands, and again drawing up the soil with the hoe or plow, so as to keep the soil that has been squeezed against the celery in its place, the work of blanching is completed." Again, "Its eating qualities are equal to the very best of the older sorts, being crisp, solid, and having that nutty flavor peculiar to the 'Walnut.'"

Celery, or Turnip-Rooted Celery—The roots possess the flavor of celery.	5	15	25	50	1.50

White Japanese —Thick flesh, musky flavor, fine.	5	15	25	40	1.50
Netted Pine Apple —Excellent sort, oval, netted, flesh thick, sweet and rich.	5	10	15	25	1.00
Muskmelon, Hurff's True Banana —This melon grows to the length of 20 to 30 inches. The flavor exceeds that of any other CanteLoupe, but many require to cultivate a taste for it. It should be very ripe to be first quality.	10	20	35	60	2.00
Muskmelon, Golden Gem —The shape is nearly round, very uniform in size, weighing from 1½ to 2 pounds each, skin thickly netted, thick meat, flesh of a light green color, inside surface being a beautiful golden yellow. In quality and flavor it is superior to all other varieties, being uniformly rich, sugary and luscious.	5	15	25	40	1.50

WATER MELON.

Phinney's Early —Oval, dark mottled with light green, large, flesh red, superior.	5	10	15	25	1.00
Mountain Sprout —Large, longish oval, green, marbled, flesh red, good quality.	5	10	15	25	1.00
Mountain Sweet —A standard sort, flesh scarlet, solid, sweet and delicious.	5	10	15	25	1.00
Peerless, or Ice Cream —(White Seeded true). Oval, of medium size, light and dark green mottled, thin rind, flesh bright scarlet, solid and very sweet.	5	10	15	25	1.00
Black Spanish —Round, dark green, good size, flesh red, solid and sweet.	5	10	15	25	1.00
Gipsey Striped, or Georgia Rattlesnake —Oblong, green mottled, red fleshed, good quality.	5	10	15	25	1.00
Cuban Queen —Specimens weighed 75 to 80 pounds; oval, rind thin, flesh solid, bright red, tender, crisp and sugary; bears handling well.	5	10	15	25	1.00
Odella —Medium size, round, light green, flesh bright red and of fine flavor.	5	10	15	25	1.00
Dark Iceing, or Ice Rind —Round, flesh solid, and of a rich sugary flavor.	5	10	15	25	1.00
Orange —Round, medium size, flesh tender, red and sweet, good quality.	5	15	25	40	1.50
Vick's Early —Long, smooth, small, flesh pink, solid, sweet and very early.	5	10	20	35	1.25
Scaly Bark —A very large, oblong sort, with a dark Scaly hard rind, flesh crimson, solid, sweet, and free from fibre. Average about 35 pounds.	5	15	25	40	1.50
Watermelon American Champion —This new melon is a cross between Rattlesnake and Scaly Bark. The skin is dark green, mottled with lighter shades; shape slightly oval; size large and remarkably uniform, varying from 25 to 50 pounds; rind very thin, yet remarkably firm, flesh tender, melting, retaining its freshness long after picking. Vines are of extraordinary vigor and astonishingly productive.	10	20	35	65	2.50

WATER MELON—CONTINUED.

Pkt. oz. 2oz. 4Lb. Lb

Pride of Georgia —This melon originated in the State of Georgia. The introducer says of it: "We consider this melon par excellence, superior to all melons of which we have any knowledge. It is a dark green mottled color, nearly oval, ridged like an orange; is firm, will ship well, and when well cultivated in good soil, attains a large size; for crispness and flavor, is unequalled.".....	10	20	35	65	2.50
Mammoth Iron Clad —This melon originated with a prominent melon grower in South Delaware. It grows uniformly, very large, specimens having been grown weighing 75 pounds each; are enormous yielders; flesh very red and of excellent flavor. The rind is extremely tough and hard, thus rendering them valuable for shipping, while their keeping qualities are not surpassed by any other melon.	10	20	35	60	2.00
"The Boss" —A new and distinct variety. So uniform in shape, color and size, that it would be impossible to select one melon which surpassed any other. Skin is black in color; flesh deep scarlet, sugary and melting. The rind is very thin and tough; ripens early and is enormously productive.....	5	15	25	35	1.25
Citron —(Red Seeds). For perserving	5	15	25	40	1.50

MUSTARD.

Carter's Early White Six-Week —Carter's select garden stock. A very early roundish, quick growing, smooth skinned variety. Flesh excellent, family or market	5	10	15	20	75
Early White Flat Dutch —The old and reliable Early White Flat. It is similar to the White-top Strap-leaf; excellent table sort for early spring or late summer sowing	5	10	15	20	45
Jersey Lily —Unquestionably the most perfect and the earliest white Turnep grown; a clear white root and a distinct small top	5	10	15	20	75
Early Snowball —An early round variety with a snow white skin, and white firm, sweet flesh; excellent for table, its attractive appearance, would make it a salable market sort	5	10	15	20	75
Jersey Navet —A long-rooted, early, fine fleshed, delicate, sweet variety for table use	5	10	15	20	75
Early White Stone —A large, early, round, smooth, white sort; fine for table and a good variety for early spring and late summer sowing for market	5	10	15	20	75
Pomeranian White Globe —Latish and productive. The roots grow to a large size, often weighing ten to fifteen pounds; skin white and smooth. Table or stock use	5	10	15	20	45
Large White Flat Norfolk —This is the old "Flat Field" sort, green above ground and white below; a heavy cropper. Grown principally for stock feeding	5	10	15	20	45
Long White or Cow Horn —Flesh white, sweet, keeps well, and is fine for table	5	10	15	20	55
Long White Tankard —For stock or table, root 8 to 10 inches long, 4 to 5 thick; green top, flesh white, firm, sweet and of good flavor	5	10	15	20	75
Long Red Tankard —Like the White Tankard, except the root above ground is red	5	10	15	20	75
Extra Early Purple Top Munich —Regarded as holding the same place among turneps that the Egyptian Beet does in the beet family, that of being the earliest of all; flesh white, splendid for first crop	5	10	15	20	75
Veitch's Early Red Globe —A fine garden variety, smooth and firm, excellent for table	5	10	15	20	70
Early Flat Purple-Top Strap-Leaved —Very popular, and is in general use as a garden and field sort, for both table and stock. Bottoms quick and is more sure to make roots than any other sort. The root is flat, smooth and uniform; flesh white, firm, sugary, mild and well flavored; size, full medium. It is the best of Turnips to sow among corn, or on patches of garden where early potatoes, peas or beans have been taken off	5	10	15	20	50
Early White Flat Strap-Leaved —Like the Purple-Top Strap-Leaved except color of top	5	10	15	20	50
Red Top Flat Norfolk —Excellent stock; the root is flat, with small top and tap root	5	10	15	20	45
Carter's Improved Purple-Top Mammoth —A large, quick growing, globe-shaped sort; firm and sweet; table and stock	5	10	15	20	75
Grey Stone —Field or garden, table or cattle, round in form, flesh hard and sweet	5	10	15	20	75

YELLOW FLESHED VARIETIES.

Early Yellow Dutch —Excellent for table; flesh yellow, firm, tender, fine grained, mild and sweet	5	10	15	20	75
Early Yellow Finland —A small, early, flat, garden variety, flesh bright yellow, tender, close grained, of a sweet and sugary flavor, choice for table	5	10	15	20	75
Early Yellow Stone —Excellent for table use, and good for stock. The roots are of medium size, firm, rich and sweet. A long keeper	5	10	15	20	75
Robertson's Golden Ball, or Orange Jelly —Globe shaped, skin bright yellow, flesh yellow, fine grained, solid, rich and of excellent flavor. A first class table variety, and on account of its keeping qualities a very desirable Turnep to feed to stock after Strap-Leaf	5	10	15	20	55
Early Yellow Malta —Excellent for table; roots medium size, bright yellow, tender and sweet	5	10	15	20	75
Yellow Aberdeen, Purple-top —Productive, good keeper, globe shaped; pale yellow, good for either table or stock	5	10	15	20	45
Yellow or Amber Globe —Good variety for general crop; flesh firm and sweet; keeps well, grows to a large size, and is excellent for stock and table	5	10	15	20	55
Carter's New Purple-top Strap-leaf Yellow —A New variety of Dutch type of quick growth. The flesh is a rich yellow of exceedingly fine texture and delicious flavor; top deep purple, giving it a very handsome appearance. Pkt. 10c.; oz., 15c.; 2 oz., 25c.; ½ lb., 40c.; ¼ lb., 75c.; lb., \$1.25.					
Sweet German —Seed, best Nantucket grown. A superior variety for table use, and good for stock. Flesh is white, solid, fine grained, sweet and excellent, will retain its freshness until the next summer. Sow about the time of sowing Ruta Baga seed	5	10	15	20	65

RUTA BAGA OR SWEDISH TURNIPS.

White Sweet Russian or Swede —Roots medium size, smooth, greenish above ground and white below; flesh remarkably firm, of fine texture. One of the best for table, remaining fit for use until very late the following spring	5	10	15	20	50
Laing's Improved Purple-top —Superior for table; purple top, yellow fleshed; a long keeper	5	10	15	20	50
Beck's Improved Ruta Baga —A smooth large variety, bulb firm, good keeper; table and stock	5	10	15	20	50

RUTA BAGA—CONTINUED.

	Pk. oz	2oz.	1/2Lb.	Lb.	
Skirving's Liverpool Purple-top Ruta Baga —A standard sort, for table and stock, roots full medium size and remarkably smooth; flesh yellow, solid, sweet and well flavored; good keeper.....	5	10	15	20	45
Waite's Large London —Larger than Skirving's; Purple-top yellow fleshed, table, stock.....	5	10	15	20	50
Shamrock —The finest purple-top Ruta Baga in cultivation; neck is small, top small, roots smooth, large and firm; excellent keeper; table and stock.....	5	10	15	20	50
Marshall's Extra Fine Purple-top —A popular English variety; one of the very best.....	5	10	15	20	50
Carter's Imperial Purple-Top Hardy Swede —A variety, yielding large crops; valuable for stock and table.....	5	10	15	20	45
Bangholm —A superior and popular variety; a large yielder; skin yellow with purple top; flesh yellow, sweet and solid.....	5	10	15	20	45
Miner's Improved —Claimed a great improvement on previous varieties.....	5	10	15	20	50
White Red-top —A French Ruta Baga with purple-top, sweet solid.....	5	10	15	20	50
Hall's Westbury —An excellent variety; very popular; grows to a large size.....	5	10	15	20	50
Sutton's Improved Champion —Claimed to be the heaviest cropper and most nutritious of all.....	5	10	15	20	50

HERB SEEDS.

	Pkt. oz.
Angelica —(<i>Archangelica officinalis</i>). Sweet, pot and medicinal. Garden variety. Formerly blanched and eaten like celery, now little used.....	5 15
Anise —(<i>Pimpinella anisum</i>). An annual herb, cultivated principally for garnishing and seasoning. The seeds have an aromatic odor and taste, and are used for dyspepsia, colic, &c., having a relaxing effect.....	5 10
Balm —(<i>Melissa officinalis</i>). Principally used for making balm tea for use in fevers; a pleasant beverage is also made from the leaves called balm wine.....	5 40
Basil, Sweet —(<i>Ocymum Basilicum</i>). A native of the East Indies. The young leaf tops are the parts made use of in soups, stews, sauces and salads, their flavor resembling that of cloves.....	5 25
Borage —(<i>Borago officinalis</i>). A hardy annual. Its leaves are sometimes used in salads or boiled as spinach. Being aromatic, its flowers and leaves immersed in cooling drinks impart an agreeable taste and flavor. Excellent for bee pasturage.....	5 15
Caraway —(<i>Carum Carui</i>). Hardy biennial. Cultivated chiefly for its seeds, which are used in confectionary, cakes, medicine, &c., and the leaves are sometimes used in soups.....	5 10
Coriander —(<i>Coriandrum Sativum</i>). A hardy annual. Cultivated for the seeds, which are used by confectioners.....	5 10
Dill —(<i>Anethum graveolens</i>). An annual. The leaves and umbels, which have an aromatic odor, and a warm, pungent taste, are put among pickles to heighten their flavor. The leaves are also used in soups and sauces. The seeds are good for flatulence and colic in children.....	5 10
Fennel, Sweet —(<i>Anethum Foeniculum</i>). A hardy perennial. The seeds are warmly aromatic, and are sometimes used in confectionary. The seeds are largely used in soups, fish sauce, and salads, and for garnishing.....	5 10
Horehound —(<i>Marrubium vulgare</i>). Hardy herbaceous perennials, with a strong, aromatic smell, and a bitter, pungent taste. It is used in cough syrups and lozenges and for other medicinal purposes.....	5 35
Hyssop —(<i>Hyssopus officinalis</i>). A hardy perennial, with an aromatic flavor, and warm, pungent taste. The leafy tops and flowers are gathered and dried for making Hyssop Tea, and for other medicinal purposes.....	5 25
Lavender —(<i>Lavandula Spica</i>). A hardy perennial. Its long spikes are used for the distillation of lavender water, or dried and used to perfume linen. The plant is delightfully fragrant.....	5 15
Marjoram, Sweet —(<i>Origanum Majorana</i>). A plant having a pleasant aromatic flavor, and is employed in various ways as a seasoning. The young, tender tops are used green for flavoring, or they may be dried for winter use.....	5 20
Rosemary —(<i>Rosemarinus officinalis</i>). A hardy perennial; the flowers and leaves have a strong aromatic fragrance like camphor. It yields by distillation a large proportion of fragrant oil.....	5 25
Rue —(<i>Ruta graveolens</i>). A hardy perennial medicinal plant. The leaves are bitter and so acrid as to blister the skin. It is a stimulant and anti-spasmodic, but must be used with great caution, as its use may result in injury.....	5 15
Saffron —(<i>Carthamus tinctorius</i>). A hardy annual from Egypt. It is cultivated on account of its orange colored flowers which are used in coloring or dyeing and as a nursery medicine.....	5 15
Sage —(<i>Salvia officinalis</i>). A hardy perennial. It is well, however, to sow seed every second year, as one and two-year-old plants afford finer flavored and a larger and a greater abundance of leaves than older plants. The leaves are used in flavoring and dressing, and for medicinal purposes. Our seed is the "Broad-leaved English." Pkt., 5c.; Oz., 25c.; 2 Oz., 40c.; Lb., \$1.50.	
Summer Savory —(<i>Satureja Hortensis</i>). A hardy annual. A culinary, aromatic herb, used in flavoring or seasoning dressings and soups.....	5 15
Thyme —(<i>Thymus Vulgaris</i>). A perennial, highly aromatic, medicinal and culinary herb. The young leaves and tops are used for soups, dressings and sauce, and a tea is made of the leaves, which is a great remedy in nervous head ache. Although Thyme is perennial, yet after two or three years it becomes stunted and unproductive, and like Sage, requires to be raised periodically from seed. Our stock of seed is of the Broad-leaved green. The best.....	5 40
Wormwood —(<i>Artemisia absinthium</i>). A perennial. The whole plant is very bitter and possesses powerful medicinal qualities. The leaves are used as a tonic and vermifuge; and it is also said to be beneficial to poultry, and should be planted in poultry ground.....	5 25

VEGETABLE NOVELTIES, ETC.

ASPARAGUS, The Palmetto—This variety is *equally well adapted* for planting North or South, and has the essential advantages of *earliness, yield, quality and evenness of growth* over all other known varieties. Pkt. 15c.; oz. 40c.; 2 oz. 75c.; $\frac{1}{4}$ lb. \$1.50.

BEANS, Rhode Island Dwarf Case Knife—*Very dwarf; strong grower; beans large; very early and hardy, and the yield as a Snap bean exceeds that of any other variety.* Pkt. 10c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 70c.

BEANS, Round Pod Red Valentine; Low's Champion; Boston Favorite; Wonder of France; Long Sword French; Mont d'Or, and Best of All—*All dwarf varieties.* See pages 15 and 16.

BEANS, Jersey Extra Early Lima—(Pole). *At least 10 days or 2 weeks earlier than any other sort; pods generally large enough to pick the latter part of July; size and appearance of pods about the same as Large White Lima and of equally good quality. A valuable variety for short seasons.* Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 45c.; qt. 90c.

BEANS, King of the Garden Lima—Introduced by Mr. Platt of Connecticut, who says of it, "A *vigorous grower, requiring but two vines to the pole, producing a continuous bloom to the end of the season. The pods are generally produced in clusters of three, each measuring from 5 to 8 inches in length and contain each from five to seven perfectly formed beans.*" *Quality superior.* Pkt. 15c.; $\frac{1}{2}$ pt. 30c.; pt. 60c.; qt. \$1.20.

BEANS, Improved Challenger Lima—*A very productive sort; pods large and compactly filled.* Pkt. 10c.; $\frac{1}{2}$ pt. 20c.; pt. 40c.; qt. 75c.

BEET, New Eclipse, and for other excellent table varieties see page 16.

BEET, Mangel Wurzel. Golden yellow Mammoth. For this **New Mangel**, and also for **Warden Prize Orange Globe Mangel; Improved Mammoth Prize Long Red Mangel; and Improved Golden Tankard Mangel.** See page 16. *Our stock of foregoing is directly from Mr. Carter, the originator and is unequalled. Special prices for five pounds, or larger lots.*

CABBAGE, Very Early Etampes; Tourlaville Early. For these and **New Garfield Pickler; Henderson's Early Summer; Early Jersey Wakefield; Fottler's Improved Brunswick,** and other choice varieties of Cabbage see page 17.

CARROT, Guerande, or Oxheart—A **NEW French variety.** A *very thick, smooth, stump-rooted sort, intermediate in length, between Early Horn and Half Long varieties. A large yielder and crops easily gathered.* Stock and table. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.50.

CARROT, Carter's Gate Post Orange—The originator says: "We now introduce to our clients a **Large Orange Carrot** than has ever before been produced, the result of many years high cultivation and careful selection. The roots grow to **immense size, approaching that of the ordinary Long Red Mangel.** It is very clean in growth, stands unusually high out of the ground, its enormous size and excellent feeding properties, rendering it of great value to the **Stock Farmer.** We anticipate a great demand for this Carrot. Pkt. 10c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75.

CAULIFLOWER, Italian Early Giant, Algiers, Henderson's Early Snowball, and for other choice varieties see page 18.

CELERY, Solid Ivory; Henderson's White Plume, Golden Heart, or Golden Dwarf, and other choice varieties see page 18.

A party who makes an almost exclusive business of growing Celery for market, and who tested during the past season several of the much advertised varieties, recommends above all other kinds.

Solid Ivory, Dwarf Golden Heart and Major Clarke's Pink. So well pleased was he with **Solid Ivory** that he lately took all of the seed of this variety that we carried over from last year and now writes for another pound. His statement is that the **Solid Ivory** is the **Most Dwarf and Most Solid** of any kind he ever grew. It is also *crisp and of fine flavor; can grow more to the acre than of any other sort and with much less expense.* Says he found no soft or hollow stalks among the above recommended varieties.

In answer to our enquiry as to whether he had tested "**White Plume**" with "**Solid Ivory**," Mr. Simpson writes: "**White Plume** will do well on up land, but grows soft and hollow on muck land. It has not, however, the nutty flavor of the "**Solid Ivory**."

CELERY, Major Clarke's Red, or Pink—*Original stock, of medium growth, of stiff close habit, large heart, remarkably solid and crisp, and of fine walnut flavor.* Pkt. 10c.; oz. 30c.; 2oz. 50c.; lb. \$1.

- CORN, New Sugar, Shaker's Early**—As early as *Minnesota*, but ears very much larger. Stalks attain a height of 6 feet, each bearing 2 to 3 large ears well filled out to the tip of the cob. The kernels are large, of pearly whiteness and of delicious flavor. A great favorite with all who have grown it. Pkt. 10c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 65c.
- CORN, Cory Sweet**—This NEW variety of *Sweet Corn* is said to be a few days earlier than *Marble-head* and ears larger. A valuable variety for market gardeners. Pkt. 10c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 70c.
- CORN, Perry's Hybrid Sugar**—A very large eared *Sweet Corn*, earlier than *Minnesota* and ears double the size of that variety. Twelve to 14 rowed; kernels are large and deliciously sweet; grows on good soil to the height of 6 feet, each stalk usually bearing 2 perfect ears. Pkt. 10c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 70c.
- CORN, Triumph, Egyptian, Amber Cream, Minnesota** and other *Sweet* varieties see pages 18 and 19.
- CUCUMBER, Nichol's Medium Green**—A very productive early, straight, smooth sort of medium length. Excellent for pickles and salad purposes. A profitable variety for forcing. Color dark green; the flesh is tender and crisp. Pkt. 10c.; oz. 25c.; 2 oz. 40c.; $\frac{1}{4}$ lb. 75c.; lb. \$2.50.
- CUCUMBER, Prolific** and other excellent varieties, see page 19.
- LETTUCE**—For all of the finer varieties of *Lettuce* see page 20.
- MUSK MELON, Baltimore**—A very productive and excellent shipping Musk Melon, and a variety that is always to be found in its season in the best hotels and restaurants in New York, Philadelphia and Baltimore. It is an oval, deeply ribbed, thick fleshed variety. The flesh is green and of the most delicious flavor. Pkt. 10c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; lb. \$2.
- MUSK MELON, Golden Netted Gem, Montreal Market, or Montreal Green Nutmeg, Hackensack, Hurff's True Banana**, and other choice varieties of Musk Melon see page 20.
- WATER MELON, The Volga**—This NEW *Water Melon* is of Russian origin and a perfectly distinct variety. It is the finest flavored sort we have ever tasted; it is a perfect globe in shape, of small size, the weight rarely exceeding fifteen pounds. It is, however, wonderfully productive. It exceeds all other varieties in richness and delicacy of flavor. Pkt. 25c.
- WATER MELON, Kolb Gem**—This NEW Melon originated at the South and is apparently the best of the several varieties that have been lately introduced. It is regarded as the very best shipping Melon now grown. The Melons are nearly round, somewhat oval in shape, very uniform, and weighing from twenty-five to fifty pounds each. Their flavor is of the very best and their keeping qualities remarkable, specimens having been in good eatable condition two to three months after shipment. Pkt. 5c.; oz. 15c.; 2 oz. 30c.; $\frac{1}{4}$ lb. 50c.; lb. \$1.75.
- WATER MELON, Scaly Bark, American Champion, Dark Icing, The Boss, Pride of Georgia, Mammoth Iron Clad, Cuban Queen, Peerless**, and other excellent varieties of *Water Melon*, see pages 20 and 21.
- ONION, Extra Early Pearl**—This remarkable NEW *Onion* is the earliest and the best of all the white varieties. It grows to enormous size; is of a pearly white color, the skin having a most showy; waxy appearance, flesh of a pure snow white and flavor so mild that it can be eaten like an apple. It grows with wonderful rapidity reaching a fine large size the first season from seed. A splendid keeper, succeeding every where. Pkt. 15c.; oz. 40c.; 2 oz. 75c.; $\frac{1}{4}$ lb. \$1.25; lb. 4.00.
- ONION, Mammoth Silver King**—This truly *Mammoth* variety is of Italian origin. It was first introduced in America two years ago. It is of an attractive flattish shape, with silvery white skin and flesh of a most agreeable mild flavor. It matures a little later than *Extra Early Pearl*, and reaches a larger size than any other of the flat varieties, frequently measuring twenty inches in circumference and weighing 3 to 4 pounds. Pkt. 10c.; oz. 35c.; 2 oz. 65c.; $\frac{1}{4}$ lb. \$1.00; $\frac{1}{2}$ lb. \$2.00; lb. \$3.50.
- ONION, Light Red Bermuda**—This variety is extensively grown in the Bermuda Islands and shipped in great quantities early in the season to various parts of the United States. The size is full medium. It is one of the very mildest flavored Onions grown. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 75c.; lb. \$1.50.
- ONION, White Flat Mammoth**—NOVELTY of 1882. The largest of the White class—bulbs often measuring 6 to 7 inches across; flat in form and silvery white; particularly mild and fine; a heavy cropper, see page 21 for price.
- ONION, Carter's Golden Queen, Carter's New Silver Ball, Carter's Golden Globe Tripoli** and for other varieties, principally *Standard Sorts*, see page 21.
- PEAS, American Wonder, Rural New Yorker, First and Best, or Best of All, Extra Early Kent, Extra Early Little Gem and Premium Gem, Tom Thumb, Bishop's Early Long Pod, Telephone, Champion of England, Stratagem, Forty Fold, Culverwell's Telegraph**, and other *Standard* sorts, see page 22.

Our stock of Peas is grown in a section where the *Pea Bug* does not exist, from our own selected stocks, upon farms in the neighborhood, no two varieties being grown upon the same farm, and all conducted under the supervision of our own grower who has had many years of practical experience in that line. Our stock is superior.

- PEPPERS, Golden Dwarf and Ruby King** are the *newer* sorts, and are of *Mammoth* size. They are mild. The *Long Red* is best where *purgency* is required. See page 23.
- PUMPKIN, Yellow Sweet Potato**—“*The Great Pie Pumpkin*.” A handsome yellow variety; has grown to the weight of **100 pounds**; is *wonderfully* prolific; as many as six to eight large Pumpkins setting on a single vine. Flesh is remarkably fine grained, very thick, of a beautiful golden yellow, a long keeper and *excellent* for pies and custards. Pkt. **10c.**; oz. **25c.**; 2 oz. **45c.**; $\frac{1}{4}$ lb. **80c.**
- PUMPKIN, Mammoth, or Large Tours**—A *French* variety, grows to an enormous size, often weighing one hundred and fifty pounds. Pkt. **5c.**; oz. **10c.**; 2 oz. **15c.**; $\frac{1}{4}$ lb. **30c.**
- PUMPKIN, Golden Yellow Mammoth**—(*The King of Mammoths*). This variety frequently reaches the enormous weight of two hundred and fifty pounds. The shape is round, a little flattened, flesh and skin a bright golden yellow, fine grained and of excellent quality for the size. Pkt. **10c.**; oz. **30c.**; 2 oz. **55c.**; $\frac{1}{4}$ lb. **\$1.**
- PUMPKIN, Bright Red Etampes Mammoth**—A *NEW* variety grows to a very large size. Pkt. **10c.**; oz. **25c.**
- PUMPKIN**, For Standard sorts see page 23.
- RADISH, Beckert's Improved Chartier**—The originator says: “This Radish, unlike most other varieties, is of American origin, and is undoubtedly by far the best variety for all purposes now in cultivation, possessing almost every good quality that can be desired. It is perfectly adapted for very early growth as well as summer and fall crops. In quality it is unexcelled, being sweet and very tender, with hardly the least perceptible pungency. It continues growing for a long time without getting pithy or going to seed, and in many instances remains in good edible condition until late in the summer, after having grown to a very large size. In color it is deep pink or crimson at the top, shading to pure white at the tip.” Pkt. **10c.**; oz. **30c.**; 2 oz. **55c.**; $\frac{1}{4}$ lb. **\$1.**; $\frac{1}{2}$ lb. **\$2.** $\frac{1}{4}$ lb. **\$4.**
- RADISH, Early Scarlet Globe**—A *NEW BRILLIANT* scarlet variety, *flesh white* and *very mild*. Pkt. **10c.**; oz. **15c.**; 2 oz. **25c.**; $\frac{1}{4}$ lb. **35c.**; $\frac{1}{2}$ lb. **65c.**; lb. **\$1.25.**
- RADISH, Olive Shaped** varieties; **Turnip Shaped** varieties; **Long-rooted** varieties; and **Winter** varieties. See page 23.
- SPINACH, Carter's Market Favorite** is the *latest* introduction. It is noted for its *thick leaf* and *long standing* before running to seed. For this and other *First-class* varieties of *Spinach* see page 24.
- SQUASH, New White Pine Apple**—“*Skin and flesh* are of a *pure, creamy white* color, *flesh* is *very fine grained* and of *excellent* quality and *flavor*, resembling the cocoonut when made into pies or custards, and is *superior* to any other Squash or pumpkin for this purpose. They can be used at any time during growth, even when very young, and after maturing make an excellent autumn and winter sort. They have been kept 18 months in good condition. Strong growers, each vine generally producing from 6 to 10 fruits.” Pkt. **5c.**; oz. **15c.**; 2 oz. **25c.**; $\frac{1}{4}$ lb. **40c.**
- SQUASH, Olive Shaped**—A *NEW French* variety, exactly the shape and color of an olive, hence the name. It attains a weight of 6 to 10 pounds, growing longer and smoother than the *Hnbbard*, with *thicker flesh* and of *better quality* than that old stand-by. The *flesh* is *very thick* and *firm*, and of a *beautiful golden yellow* color, remarkably good in quality and very productive. It is the best of keepers, and as a winter squash it is believed superior to all the older varieties. Pkt. **5c.**; oz. **20c.**; 2 oz. **35c.**; $\frac{1}{4}$ lb. **50c.**
- SQUASH, Mammoth Chili**—Grows to an immense size, often weighing over **200 pounds**. Good for various uses. To grow *Mammoth* Pumpkin and *Mammoth* Squashes to *full size* plant on *thoroughly enriched* ground. Pkt. **10c.**; oz. **30c.**; 2 oz. **50c.**; $\frac{1}{4}$ lb. **\$1.00.**
- SQUASH, Hubbard, Boston Marrow** and other *Standard* varieties, see page 24.
- TOMATO, Livingston's Beauty**—*Seed first offered this season*. “The color is *quite distinct*, being very *glossy Crimson* with a slight tinge of purple. It grows in *clusters* of four or five fruits, retaining its very large size late in the season, an essential in its favor. It ripens with the *Aene* and *Perfection*, and shows *no signs of rotting*. It is *firm* and *skin thick*. For shipping and early market it *cannot be excelled*.” Pkt. **25c.**; 5 pkts. **\$1.**
- TOMATO, Carter's Perfection**—*Mr. Carter* says of this *New Tomato*: “The *finest Novelty* for many years. It is of very *handsome* form, a *prodigious cropper*, somewhat resembling *Dedham Favorite* but *very distinct in color*, and of *exquisite* flavor. Fruit in weight from **8 to 10 ounces** each.” Pkt. **10c.**; $\frac{1}{2}$ oz. **25c.**; oz. **40c.**
- TOMATO, The Cardinal**—It is of vigorous growth and bears largely the whole season. The fruit is perfect in shape, being entirely free from ridges, and is of brilliant cardinal red, colored up to the stem. The flesh is of the same brilliant color. A superior variety. Pkt. **5c.**; oz. **25c.**; 2 oz. **45c.**; $\frac{1}{4}$ lb. **80c.**
- TOMATO, The Mikado**—“A *New Variety of Immense Size, Perfect Solidity* and *Unsurpassed Quality*. The *Mikado* differs from all others in its *immense size*. The Tomatoes are produced in *immense clusters*, and are *perfectly solid*. The color is purplish red. It is not unusual for single fruits of this variety to weigh from one pound to one and a half pounds each. Whether for *slicing* or for *cooking* purposes the *quality* is most excellent. Pkt. **25c.**; $\frac{1}{2}$ oz. **\$1.**; oz. **\$2.**
- TOMATO, Carter's Dedham Favorite, Livingston's Favorite, Livingston's Perfection, Essex Hybrid, Mayflower** and other *Standard* sorts, see page 24.

TURNER, Extra Early Milan—A New Purple Top Strap Leaf variety, being a week earlier than ordinary sorts. It is full as early as the Purple Top Munich, and far superior to that variety which soon gets hot and bitter, while this sort retains its good qualities and remains a long time fit for use. The bulbs are white with a purple top, round, flattened and solid, with a very slender tap root; flesh is pure white, sweet and crisp. Pkt. 5c.; oz. 10c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 45c.; lb. 90c.

TURNIP, Carter's New Purple Top Strap Leaf Yellow—For this New variety and other New and Standard sorts, see pages 25 and 26.

FLORAL NOVELTIES, ETC.

ABRONIA Villosa—A recent NOVELTY; native of Southern California; resembling in habit *Abro-nia umbellata*, but more robust; flowers of deep lilac purple, and more abundant, Pkt. 10c.

ACROLINIUM, Double Rose and Double White, late Novelties. See page 10.

ASTERS, Victoria Sulphur Yellow and Dwarf Victoria Sulphur Yellow, Novelties of 1884; Washington Asters, and especially the Truffaut Asters, and other NOVELTIES in ASTERS, see page 1 and 2. Our assortment of Asters and stock of seeds is unsurpassed.

BALSAM, Challenger Prize, late magnificent Novelty; New Carnation; Solferino; Victoria, and other splendid varieties, see page 2.

CALENDULA, Prince of Orange. This Novelty is an outcome from the METEOR, to which it is superior in beauty, the florets being striped with a more intense shade of ORANGE, and this glowing is imparted to the whole flower. A constant bloomer; Pkt. 10c. For other varieties, see page 2.

CANDYTUFT, New Dwarf varieties, etc.; Cannas, fine assortment; COCKS-COMBS, new variegated, Japan, and other showy varieties, see pages 2 and 3.

CHRYSANTHEMUM Carinatum (TRICOLOR) Eclipse, for this showy Novelty, *Coronarum sulphureum, double, a fine NOVELTY*, and for other showy hardy annual sorts, see page 3.

CHRYSANTHEMUM. The following Fall and Winter-flowering Pot-HOUSE plants: Double-flowering Chinese, Marguerite of Paris; Double Pompon; New Double Japanese varieties, and other choice sorts, see page 13. An unequalled assortment of SPLENDID NOVELTIES.

CLEMATIS Jackmanni Hybrida, and other fine sorts of CLEMATIS, see page 9.

COCKSCOMB (CELOSIA CRISTATA); Carter's Empress, "The finest Cockscomb in cultivation; color a bright crimson, with a rich velvety appearance." Pkt. 10c.

COCKSCOMB, President Thiers—(TOM THUMB GLASGOW PRIZE), Dark leaves and crimson comb; fine. Pkt. 10c.

See pages 2 and 3 for Variegated and New Japan Varieties.

CONVOLVULUS Minor Tri-color Roseus, Novelty. A NEW color. The center of the rose flowers is PURE WHITE, tinged with purplish violet and changing towards the throat in five broad bands of golden yellow, Pkt. 10c.

See page 3 for other fine varieties Dwarf Convolvulus.

Convolvulus Major, Aureus Superbus, Cantabricus Stellatus, and other Tall Growing Morning Glories, see page 9.

DOUBLE DAISY, (BELLIS PERENNIS FL. PL.)—Longfellow, a FINE NOVELTY. The flowers are of UNUSUAL size and DOUBLENES, and are of dark rose color. Fine for bouquets. Pkt. 20c.

Other fine Varieties of Double Daisy, see page 3.

DAHLIA, Best Assortment, see page 3.

DELPHINIUM, IMPERIALE ALBA FLORE PLENO—Emperor Larkspur, Pure White—This New, Pure White flowering variety is a welcome addition to the other profuse flowering sorts. Pkt. 10c.

DIANTHUS—See pages 3 and 4. **Crimson Belle, Eastern Queen and Double Diam-dam Pinks**, are SHOWY Varieties.

EUCHARIDIUM Breweri—A magnificent species, of dwarf, spreading habit. The color of the flowers is a pleasing, purplish rose, shading to white in the center. It flowers profusely, and is of the same easy culture as the Clark. Pkt. 20c.

CAILLARDIA Picta Lorenziana—NEW Double-flowering. One of the most striking of NOVELTIES. Flowers are of different shades, varying from sulphur yellow to purple and two inches across. Fine for bouquets. Pkt. 10c.

CODETIA, (New) Lady Satin Rose—Unique and unequalled in brilliancy and general beauty. Fine for groups or pots. Pkt. 10c.

CODETIA, (New) Spotted Carpet—A dwarf variety bearing myriads of chaste, pretty flowers of pure white ground with a bright carmine spot at the base of each petal. Pkt. 10c.

CODETIA, Duchess of Albany (Novelty)—Completely covered with large clusters of beautiful, glossy, satiny white flowers, when fully expanded, measuring four inches across. Pkt. 10c.

The foregoing, mixed, including Bijou and Lady Albemarle. Pkt. 10c.

IMPATIENS Sultana—A New PERENNIAL Balsam. Flowers brilliant rose scarlet, and so profuse that a plant appears to be a perfect ball of flowers. Pkt. 15c.

MARIGOLD, African Eldorado—Flowers are from 3 to 4 inches in DIAMETER, *perfectly imbricated* and *extremely* double, flowers running through all shades of yellow from very light primrose to the deepest orange. Pkt. 25c.

MIGNONETTE, "Machet"—A *splendid Novelty*; flower stocks are numerous, terminated by MASSIVE SPIKES of deliciously fragrant red flowers. Pkt. 10c.

MIGNONETTE, New Large-flowering Upright—A *vigorous* grower, producing flower spikes from 12 to 15 inches in length of exquisite fragrance. Pkt. 10c.

For other fine varieties, see page 5.

NASTURTIUM, "Lady Bird"—Tom Thumb variety. Flowers are rich golden yellow, barred with a broad vein of *light ruby crimson*; fine. Pkt. 10c.

NASTURTIUM, Empress of India, and other splendid *Dwarf* varieties, see page 5.

PANSY, Trimardeau, and an *unequalled list* of other *splendid varieties*, see page 5. We have taken *great care* in procuring our stock of PANSY SEEDS. NONE BETTER CAN BE HAD.

Petunia grandiflora, Carter's Emperor Double Rosette; Large-flowering Yellow-throated; Lady of the Lake; Fimbriata Delicata; Double Lilliput, and other *splendid* varieties, see page 6. No pains or expense has been spared in procuring our stock of PETUNIA SEED.

PHLOX Drummondii Grandiflora Stellata Splendens. The GRANDIFLORA SPLENDENS is admitted to be the richest colored of all the LARGE-FLOWERED PHLOXES. This *new Phlox* is identical with that, except that it has for its center a CLEARLY DEFINED PURE WHITE STAR, which contrasts *strikingly* with the *vivid crimson* of the flower. Pkt. 20c.

For a long list of other CHOICEST VARIETIES, see pages 6 and 7.

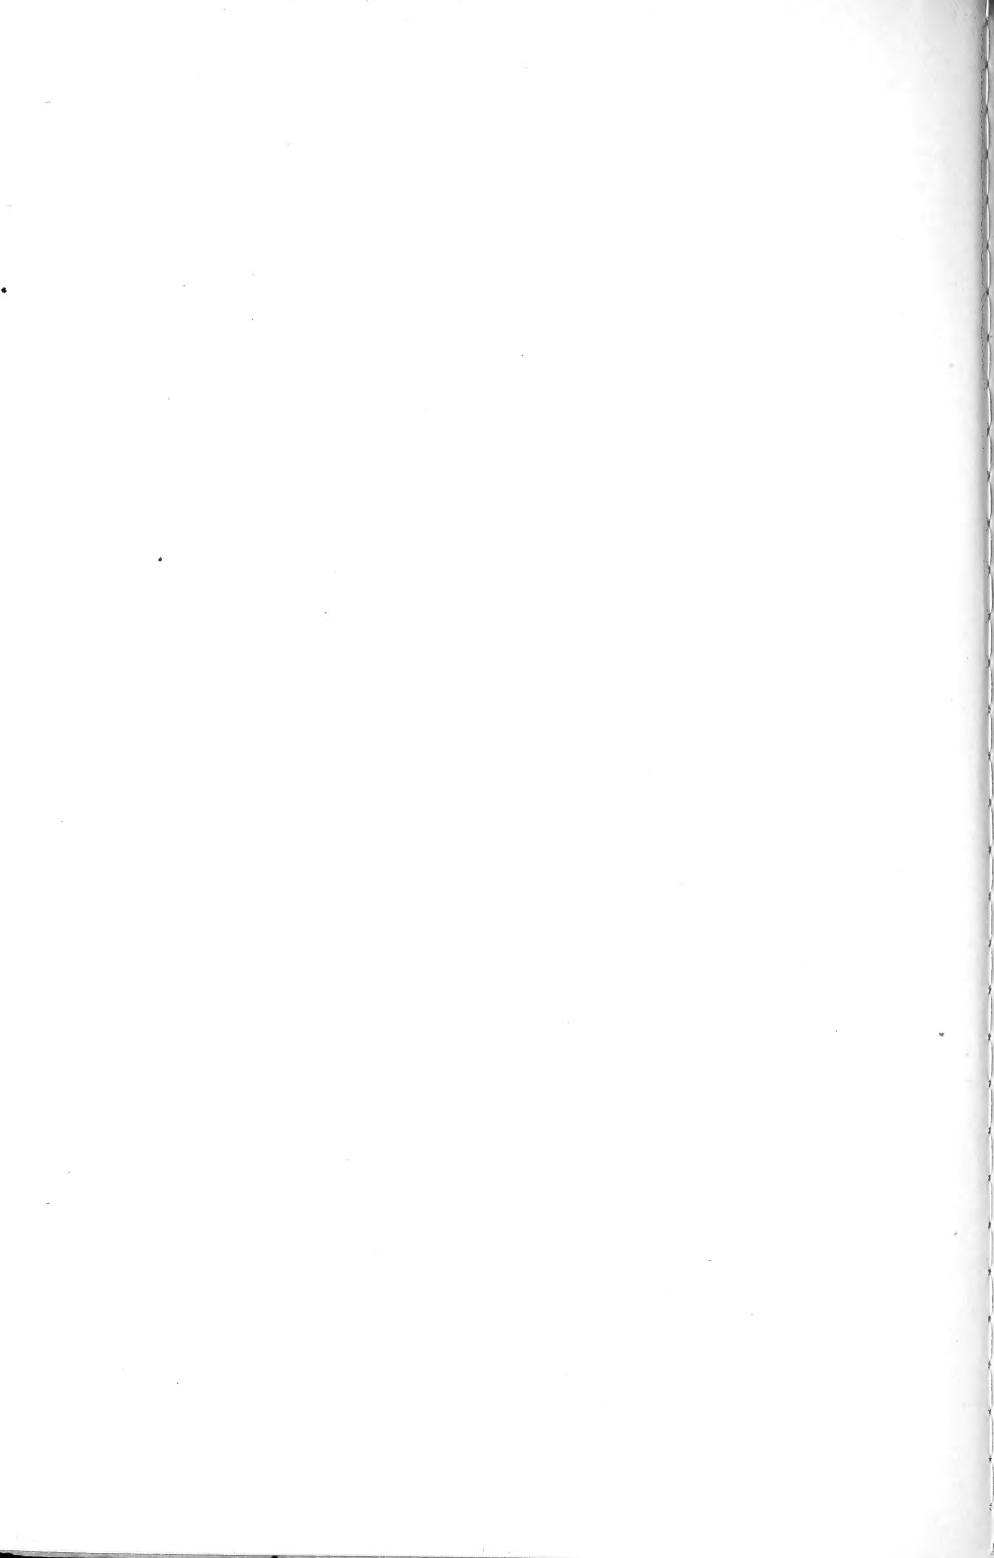

POPPY, Danebrog—A *very desirable NOVELTY*, producing single *brilliant scarlet* flowers, the base of the petals being blotched with silvery white. Height about 2 feet; very effective. Pkt. 10c.

POPPY, Victoria Cross—A SELECTION from the **Danebrog**, and it is IMPOSSIBLE to fitly describe the *brilliant beauty* of the flowers. The CENTER represents a **Maltese Cross** of *white*, with an outer zone of amber stamens, the disc radiating in yellow bars upon a bed of green. The large surface of the petals is of a *rich vermilion crimson*. An *exquisite Novelty*.

STATICE Suworowi—A *handsome* species, with bright rose flowers in NUMEROUS spikes of about 10 inches in length; fine bloomer. Pkt. 10c.

VERBENA, Golden-leaved Scarlet—A variety with GOLDEN FOLIAGE, which *strikingly* contrasts with the BRIGHT SCARLET of the flowers. Pkt. 20c.

ZINNIA, New Pomponne—A beautiful NEW STRAIN. The flowers are about half the size of ordinary Zinnias, and are most distinct and beautiful, bright and showy, embracing almost every shade of color. Pkt. 10c.
